Comment on the Department of Energy's Recommendation of the Yucca Mountain Site

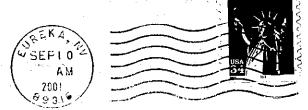

| | RECEIVED | | | |
|--|---|--|--|--|
| My comments on the Yucca Mountain Project are as follows: | SEP 1 4 2001 | | | |
| Decision documents are incomplete without a full analysis of transportation impacts. | | | | |
| All spent fuel disposal alternatives should be thoroughly studied prior to a site recommendation decision. | | | | |
| A "flexible" set of evolving design scenarios with variable operational modes is insufficient. | ficient for a suitability | | | |
| The design should contain waste within the repository as long as it remains hazardous environment. | s to people and the | | | |
| A site recommendation should not be made until the comments made by the public of Environmental Impact Statement have been adequately addressed and released for public of the public of | | | | |
| Other <u>See below</u> , | | | | |
| Comments: | | | | |
| The Department of Energy has released the Preliminary Site Suitability Evaluation for a go Mountain for public review and comment. This is the final opportunity citizens will have | | | | |
| ore the Secretary of Energy makes his recommendation to the president. DOE is required ubmitted regarding the impacts of building and operating a repository, including transportations are: I am very much opposed to having Yucca Mount | tation. | | | |
